Diamond Connection™ Solutions

SIMPLY POWERFUL

Fleet Maintenance and Management Software

The Power of Management

International knows how to reduce your fleet cost and increase uptime. Our new and improved Diamond Connection™ Solutions further exemplifies our customer commitment by providing leading edge fleet maintenance and management technology to track and manage your fleet maintenance needs.

Keep safe driving a priority by:

- ✓ Delivering a preventive maintenance schedule that:
 - ensures parts availability
 - records truck maintenance and repairs
 - identifies potential training needs based on documented repair activity
- ✓ Creating PM reports to meet state-mandated programs
- ✓ Staying informed on the repair and maintenance history of the entire fleet

Generate powerful management reports such as:

- ✓ Vehicle cost per mile and more
- ✓ Employee list
- ✓ Inventory:
 - parts on hand, cores, warranty claims, audit trail and reorder report
- ✓ Work orders by vehicle, mechanic and invoice summary
- ✓ Preventive maintenance:
 - schedule, due and history
- ✓ Custom reports

With Diamond Connection Solutions, you can manage your truck fleet's maintenance, repair and parts inventory – on time and on budget, to keep your trucks on the road. It can also schedule preventive maintenance and work orders.

Eliminate time-consuming, routine inventory management by:

- ✓ Developing accurate inventory records
- ✓ Reducing inventory carrying costs
- ✓ Identifying slow-moving or obsolete inventory
- ✓ Reordering parts easily with a daily system-generated suggested parts order
- ✓ Eliminating redundant data entry

Add more power with optional features such as:

- ✓ Networking
- ✓ Employee information
- ✓ Vehicle parts reference
- ✓ Fuel tracking, fuel interface
- ✓ Purchase orders
- ✓ License and permits
- ✓ Report problems
- ✓ Vehicle logs
- ✓ Tire tracking
