

YOUR CUSTOMERS GET WHAT THEY WANT. (GREAT TRUCK.)

YOU GET WHAT YOU WANT. (PROFITS.)

# EVERYBODY'S HAPPY.

Success in the leasing and rental business begins with the right truck. You're looking for a vehicle that delivers a low cost of operation today – and a high resale value down the road. It has to be durable. Easy to maintain. And appealing to your customers. International® 4000 Series trucks come through in all these ways and more. Legendary International® engines drive up reliability and resale value. Extended service intervals and easy maintenance

increase uptime. World-class cab construction ensures long-term durability.

For your customers, International 4000 Series trucks offer a bold and stylish appearance, a spacious, comfortable cab and outstanding ride, maneuverability and handling.

In other words, it's everything you and your customers could want in a medium truck.

# INTERNATIONAL® 4000 SERIES TRUCKS. FOR THE LEASE WITH THE MOST.

## Built for outstanding reliability, durability and high resale value.

- With the industry's best engine, cab and chassis, International® 4000 Series trucks keep maintenance costs low while commanding a high resale value.
- Legendary International® engines deliver superior reliability and durability, extended life, and more horsepower and torque.
- Three-step prime/base/clear coat paint process for the hood and cab provides outstanding resistance to corrosion and fading, lower maintenance costs and increased resale value.
- The double-sided galvanized steel cab features automotive fit and finish for world-class quality and a quiet ride.
- The frame system provides increased payload capacity and eliminates the need for "L" reinforcements.
- The International 4000 Series offers more standard features than competitive models. Standard features include daytime running lights, manifest door pockets and Huck frame fasteners.

## Easy serviceability.

- Hood, grille, mirror and headlights are easy and less expensive to repair or replace. For example, the three-piece hood offers potential repair savings up to \$1,000, and the breakaway mirrors potentially reduce door and mirror repair costs by \$700-\$1,100.
- The International® Diamond Logic™ electrical system brings added brainpower and integration to your operation with minimal wires and connections. Advanced diagnostics help drivers and technicians quickly and accurately pinpoint electrical problems.

- Repair times have been reduced up to 20% with easy access to major components and faster daily fluid checks. Uptime is increased with extended preventive maintenance service intervals.
- International engines offer lower preventive maintenance costs and a lower cost for overhaul than competitive engines.

## Driver appeal.

- The spacious cab offers more shoulder, head and belly room, while the best-in-class HVAC system provides improved temperature and airflow control.
- The sloped hood, along with the swept-back angle and curved design of the windshield, offers a commanding view of the road.
- A tight turning radius provides outstanding maneuverability.

- Entry and egress are simplified with an ergonomic three-point entry system and wide door openings.

## First-class support.

- Your local International® dealer provides comprehensive service and support to keep your business moving.
- Around-the-clock parts-ordering capability ensures you'll get the right part, fast.
- International® Diamond Advantage® manages your parts and service purchasing – electronically. International® Diamond Connection™ provides advanced parts inventory management and service tracking.
- 2-year/unlimited-mileage limited warranty on International 4000 Series Diamond SPEC™ trucks, plus a choice of custom or optional warranty coverages.
